Fourth year running, Alyeska named one of World's Most Ethical Companies

ANCHORAGE, AK – Alyeska Pipeline Service Company has been identified as one of the World's Most Ethical (WME) Companies for the fourth year in a row. The Ethisphere® Institute announced its selection today at the 2015 WME Honoree dinner in New York.

"Earning this distinction for four consecutive years reflects very favorably on the character of our personnel," said Tom Barrett, Alyeska Pipeline Service Company President. "Demonstrating ethics and integrity is more than following rules or policies. It has become an integral part of the TAPS DNA and how we work and live every day."

Companies are evaluated in five key categories: ethics and compliance program, corporate citizenship and responsibility, culture of ethics, governance, and leadership, innovation and reputation. Alyeska demonstrated:

- Strong and consistent safety and environmental performance.
- Sustainability initiatives designed to extend the life of the pipeline and protect the environment.
- Established policies and procedures that foster ethical behavior.
- Corporate citizenship programs, including the annual United Way campaign, school partnerships and matching employee philanthropy contributions.
- Strong code of conduct and an excellent open work environment that encourages employees to raise concerns and identify company improvements.
- Direct lines of communication between the workforce and leadership.

"The World's Most Ethical Companies embrace the correlation between ethical business practice and improved company performance," said Ethisphere's Chief Executive Officer, Timothy Erblich. "Earning this recognition involves the collective action of a workforce from the top down. We congratulate everyone at Alyeska Pipeline Service Company for this extraordinary achievement."

The Ethisphere® Institute is a global leader in defining and advancing the standards of ethical business practices that fuel corporate character, marketplace trust and business success. Ethisphere honors superior achievement through its World's Most Ethical Companies® recognition program. Ethisphere's selection criteria and the complete list of 2015 World's Most Ethical Companies can be found at <http://ethisphere.com/worlds-most-ethical/wme-honorees/>.

About Alyeska Pipeline

For 36 years, Alyeska has operated the 800-mile Trans Alaska Pipeline System (TAPS), safely moving oil from Prudhoe Bay on the North Slope of Alaska south to the Port of Valdez, the northernmost ice-free port in the United States. The pipeline traverses three mountain ranges, permafrost regions and 34 major rivers and streams. Alyeska personnel work in Anchorage, Fairbanks and Valdez and at pump stations and response facilities all along the pipeline. They also operate the Ship Escort/Response Vessel System (SERVS) for Prince William Sound. Alyeska was created to construct, operate, and maintain TAPS for owner companies which today are BP Pipelines (Alaska), ConocoPhillips Transportation Alaska, ExxonMobil Pipeline Company and Unocal Pipeline Company
