

Grace Keller
Corporate Communications

Grace graduated from UAF with a BA in Communications. She supports the Corporate Communications team in Fairbanks.

Keller wants to gain valuable work experience as a professional using her degree. She is passionate about creating a focused work environment with her team through effective communication and having an open work environment to keep everyone on the same page towards the end goal.

“There is no easy path to excellence. It takes hard work and high standards to act with discipline. But practice delivers outstanding results.”

Grace hopes to continue working at Alyeska as she has thoroughly enjoyed the experience and opportunities made available to her during this internship.

Wyatt Mehlberg
O&M Division

Wyatt is a recent graduate from UAA's Kenai Peninsula College (KPC) where he completed a dual degree program earning an AAS in Process Technology and Instrumentation Technology.

Wyatt is a Utility Intern with the VMT Operations team in Valdez. He is hoping to learn about how the overall terminal runs and the various daily functions of the team.

Wyatt is passionate about keeping busy professionally. His goal for this internship is to learn as much about the work tasks and processes in Valdez as possible.

Isaiah McPherson
Corporate Communications

Isaiah is a Computer Science student at UAA where he recently finished his junior year working on a BS degree.

McPherson supports the Environment team in Anchorage. He has enjoyed learning and seeing all the different opportunities available.

“At Alyeska, we strive to prevent every incident, no matter how small or rare. We believe that if we put in the effort, we can create a safe and smoothly running workplace, free of incidents for everyone on TAPS. This is what it means to Believe in Zero.”

Isaiah is passionate about continuously learning as a professional. He has experienced this by speaking with and listening to others at work, who give him an understanding of what they do and how this job can impact him. Isaiah hopes to create connections, advance his skill set, and learn as much as possible during his time at Alyeska.

Kadeen Sanford
O&M Division

Kadeen is a UAA KPC graduate with an AAS degree in Process Technology and recently completed a certificate in Instrumentation Technology.

Kadeen is a Utility Intern and supports the VMT Operations team in Valdez. He is learning about how teamwork is essential for a facility to function and is passionate about gaining more knowledge of the work that is done on the pipeline.

Kadeen hopes to apply his education to help improve the company's operations and productivity while continuing to grow this internship opportunity into a potential career at Alyeska.

Will Fagerstrom
CFO Division

Will is a senior at Colorado State University in Fort Collins, Colorado where he is pursuing a BS in Computer Science.

Will's internship assignment supports the Cyber Security team in Anchorage. His goal for this internship is to be more outgoing with his coworkers and to work as part of the team.

“Alyeska takes pride in the idea to spend wisely. Using the time, people, materials, and budget we have sensibly - we can more efficiently finish tasks, save money, and lower the amount of resources wasted.”

Fagerstrom is passionate about building a strong foundation in the workforce. He hopes to better understand the fundamentals of cybersecurity and how it can be applied to his projects.

Billy Thomas
Engineering & Risk Division

Billy is a senior at UAF pursuing a BS degree in Mechanical Engineering.

Billy's intern assignment with Integrity Management provides him with opportunities for travel to Fairbanks and the Pipeline. He wants to learn how engineering is done in a professional workplace, week by week. That way, he can apply what he is learning in school to a professional environment.

Thomas has a passion for data collection/visualization and hopes to learn as much as he can to take advantage of the unique opportunities available through this internship.

Ethan Sundown
CFO Division

Ethan joins Alyeska for a second internship. He is a senior at UAA. His degree program with the College of Business and Public Policy is a BA in Economics.

This year, Ethan supports the Business & Strategic Planning team. His goal is to expand his vision and his definition of what it means to be accountable.

“Our company is defined by speaking and working together as a team. When we work together, we realize that we can depend on one another to meet our objectives; by knowing that, we become something more than a company. Success is guaranteed when we make sure everyone succeeds with us, because we only win together.”

Ethan enjoys being exposed to different careers and wants to continue working as a professional and learn how to be an effective team member. He recognizes how the ability to organize and work together as a team allows us to achieve anything.

Jon Winters
Engineering & Risk Division

Jon is a Mechanical Engineering student at UAA where he is working toward a BS degree.

As a UA Scholar, Jon is skilled in problem solving and experienced with working in a team setting. He was assigned to support the Automation Engineering team at OCC.

Winters is passionate about continuous learning. So, he fully embraced the opportunity to learn about automation engineering, as it was more of a gray area for him before. He plans to use this internship experience to develop his professional skills as much as possible.

2024
**INTERNSHIP
PROGRAM**

telyn

Toby Bromirski

Engineering & Risk Division

Toby is a senior at UAA where he is pursuing a Bachelor of Science degree in Computer Systems Engineering.

“At Alyeska, the key to moving forward and improving our quality of work is by taking our accountability seriously. By keeping track of what we do, how it’s done, and why; it becomes easier to find ways to improve past, present, and future work.”

Bromirski’s internship assignment supports the Data Management and Assurance team. He hopes to learn more about data management in a professional work environment while also adding value to his team.

Toby is passionate about personal time management, as it applies to work efficiencies and tying that into being a mindful team member.

Brady Burrough

Engineering & Risk Division

Brady attends Fort Lewis College in Durango, Colorado where he is working on a BS degree in Energy Engineering.

Brady joins the Integrity Management team for a second internship. He plans to gain practical application experience and further enhance his technical knowledge to bring it back to college and apply to his professional career.

Burrough is passionate about doing fulfilling work, where he can help others. He hopes to leave a positive impact on his coworkers, by having been helpful with their workload. He also hopes to come back to Alyeska one day.

Benjamin Brown

Engineering & Risk Division

Ben is an Alyeska intern rehire. He is a senior at UAA majoring in Computer Science, pursuing a BS degree.

Ben’s internship assignment allows him to continue supporting the Operations Technology team at OCC. He comes back to Alyeska hoping to gain more direct learning and technical experience as he figures out his career direction.

“Alyeska’s success is created through enabling all team members to speak up and step up about the tasks at hand. Everyone’s input is used to solve problems in an efficient and safe manner.”

Brown has a true passion for data and numbers and has been able to pursue that at Alyeska. A goal of his is to be impactful and be an active contributor to Alyeska’s overall success.

Ginger Keller

O&M Division

Ginger Keller attends UAF where she recently finished her freshman year working toward an AAS degree in Process Technology.

Ginger is a utility intern and will join the Maintenance South Operations team at the Valdez Marine Terminal (VMT). Ginger is excited to learn about the Ballast Wastewater Treatment (BWT) in her internship.

She is passionate about learning new things and expanding her comfort level. She hopes to gain confidence in working with others and in new opportunities.

Charlee Demientieff

Human Resources

Charlee is a senior at UAF studying for a BA degree in Business Administration with a minor in English.

“Alyeska fosters an environment of taking action through the encouragement everyone gives you to seek out your own answers.”

Charlee joins the Alaska Native Program team as Lead Intern and is taking on a coordinator role. She is creating, leading, and facilitating events for the interns by communicating effectively, and checking in with all the interns while also working on team projects.

She is determined to learn as much as possible and grow professionally. Her goal is to be a high contributor, create engaging experiences for the interns and make herself memorable to continue at Alyeska.

Cecilia Fitzpatrick

O&M Division

Fitzpatrick is a sophomore at Montana State University. She is pursuing a BS degree in Geology.

Cecilia supports the System Wide Civil Maintenance team. Her goal is to take information she’s learning from college and solve real-life problems. She is learning how individual roles and contributions tie into teamwork in a large company, as well as the level of communication it takes to function efficiently.

Cecilia wants to learn more about the field she plans to go into professionally and is thoroughly enjoying the hands-on experience at Alyeska.

Tyler Hudson

O&M Division

Tyler is a senior at the University of Oregon in Eugene, Oregon. He is pursuing a Bachelor of Science degree in Economics with a minor in Business Administration.

Hudson’s first internship assignment with Alyeska is to support the System Wide Transportation and Facilities team at the Fairbanks Maintenance Facility.

“The world revolves around those who commit themselves to becoming the best person they can be. APSC was built around people who made that same commitment, and have developed an identity to “getting better every day” for current and future employees.”

Tyler’s mission for this internship is to be a selfless team player. He wants to learn everything that the professionals around him have to offer, while also contributing in a way that helps the fleet team operate more efficiently.

Carlton Hautala

Health & Safety, Environment, and Compliance

Carlton is a UAF graduate with a BS degree in Fisheries. He is also enrolled in an AAS degree in Process Technology.

Carlton’s internship assignment supports the Environment team. He is interested in TAPS maintenance of the environment around the pipeline. He enjoys learning how to be fully prepared to complete a work task safely.

Carlton is determined to demonstrate that he is fully capable and committed to being a high-performance employee. He is interested in a potential future career at Alyeska.
